

# The Part Finder Identity Card

## 1. Machine Vitals (Found on the plate usually under/behind the machine)

- **Brand:** \_\_\_\_\_
- **Model Number:** \_\_\_\_\_
- **Serial Number:** \_\_\_\_\_ (Crucial for Viking/Pfaff/Bernina year identification)
- **Manufacture Year (Approx):** \_\_\_\_\_

## 2. The Part Specs

- **Part Name:** \_\_\_\_\_
- **Part Number (from Manual/Schematic):** \_\_\_\_\_
- **Voltage/Amps (For Motors/Pedals):** \_\_\_\_\_ (Must match wall outlet & machine rating)
- **Physical Measure (if broken part is available):** \_\_\_\_\_ (e.g., diameter of bobbin, length of belt)

## 3. Compatibility Check (The "Fit" Test)

- **Shank Type:** (Low, High, Slant, or Snap-on?) \_\_\_\_\_
- **Bobbin Class:** (Class 15, 66, or Proprietary?) \_\_\_\_\_
- **Hook System:** (Rotary or Oscillating?) \_\_\_\_\_

## 4. Seller Vetting (Pass/Fail)

- Does the listing match my Part Number exactly?
- Is there a clear photo (not a stock image)?
- Is there a Return Policy? (Yes/No)
