

Bernina Pinpoint Laser Deployment & ROI Audit

Part 1: Hardware & Compatibility Checklist

Verify these points before placing your order to ensure compatibility.

- **Serial Number Verified:** (Enter Machine S/N: _____)
- **Mainboard Revision Checked:** (Code from System Info: _____)
- **Firmware Version Current:** (Check Bernina Support Portal: _____)
- **Accessory Port Status:** (Inspected for debris/pins: Yes)
- **Dealer Support Confirmed:** (Contact info of local technician: _____)

Part 2: Implementation SOP

Step-by-step validation during the installation process.

1. **System Backup:** Export all custom stitch profiles to USB.
2. **Contact Cleaning:** Wipe accessory pins with isopropyl alcohol.
3. **Firmware Flash:** Ensure FAT32/exFAT drive stability.
4. **Absolute Check Calibration:** Validate 4-point morphing coordinates.

Part 3: ROI Calculator (Monthly Projection)

Metric	Current Baseline (No Laser)	Projected (With Laser)
Setup Time (per garment)	_____ min	_____ min

Waste Rate (%)	_____ %	_____ %
Ruined Blanks (count)	_____ units	_____ units
Material Cost Saved (\$)	\$0	\$ _____
Labor Hours Saved (\$)	\$0	\$ _____

Total Monthly Gain: \$ _____
